

Zuri Okafor

Graduate Software Engineer | Web applications and data tools

Lagos, Nigeria · zuri.okafor@example.com · +234 000 000 0000 · example.com/zuri

PROFILE

Computer science graduate with practical experience building and testing web applications through internships and team projects. Comfortable explaining technical choices, learning unfamiliar tools and shipping documented work.

SKILLS

JavaScript, TypeScript, Angular, Node.js, Python, MySQL, Git, REST APIs, unit testing, accessibility

EXPERIENCE

Software Engineering Intern — Beacon Learning Lab | 2025

- Implemented accessible form validation for four enrollment flows and resolved 12 keyboard-navigation defects.
- Added API tests for account and course endpoints, documenting setup and expected failure responses.
- Worked with a designer and two engineers to deliver the feature during a six-week internship.

SELECTED PROJECTS

Community clinic appointment app: Built an Angular and Node.js prototype with role-based access, appointment reminders and a MySQL data model; tested with eight volunteer users.

Final-year data project: Compared three classification approaches on a public dataset and documented data limitations, evaluation measures and reproducible steps.

EDUCATION

BSc, Computer Science — Example University of Technology, 2026
